

**ROA Director Update
Friday, May 27th, 2016**

Hello lovely ROA families,

We would like to thank of all of our families who have been helping us in meeting our testing requirements and our students who have worked so diligently to give us their most authentic

results. We really appreciate your support with this.

We are in the process of finalizing our fall workshops and classes and hope to be able to publish our schedule with the last Director Update on Friday, June 10th. That way, you can plan properly for the fall.

The end of the school year is almost upon us. See below for more information on the Graduation and Year-End Party.

We are very excited to combine our **High School Graduation** with our "*End of the Year Celebration.*"

Bring your student and have them be inspired by witnessing our high school seniors with their family and teacher celebrate their journey.

Wednesday, June 8, from 11:30- 2:30 the event takes place at Conejo Creek Park in Thousand Oaks.

Come and enjoy food, friends and community.

If you have RSVP'd for food tickets, they will be available for pick-up next week starting Tuesday until no later than Friday, June 3 at 12:00 noon. If you have not picked up your food tickets by June 3 at 12:00 noon, we will cancel your reservation, as we have to convey exact numbers to the food truck.

Your food choices will be (Beverly will need to know this when you pick up your tickets):

- Scratch burger with fries
- Chicken sandwich with fries
- Quinoa Bowl (vegetarian)
- Kid's Cheese Sandwich

We look forward to seeing all ROA families.

ROA High School Info Session! Our first High School Info Session was a huge success. We will repeat this a couple more times at the beginning of the new school year and are asking ALL high school students to attend to get that valuable information.

Attention, High School Students! Are you interested in taking a community college course this summer, or in the fall? If so, see your teacher and/or Richard Intlekofer, Counselor, to begin the application process. We need to complete important paperwork for you, so don't delay. Summer course registration for some colleges, including Moorpark, begins this coming week. Fall registration begins in late July. And, because we may not be available to sign forms for you at that time, be sure to see us before school ends in June. Take advantage of this opportunity to earn college and high school credits!

Seniors!!! If you are planning to attend a community college full-time in the fall, be sure to take care of the enrollment process immediately! Contact Richard Intlekofer, Counselor, for information...today!

CAREER PATHWAY UPDATE:

Exciting news from our Career Pathway Program....Networking Pathway Opportunity!!!

We have been working with ACE Charter High School this year, and we recently agreed to partner for our Networking Pathway. ACE Charter High School enhanced and added a series of three courses (Math for Programming, Intro to Computers and Computer Science Principles) that will be available to interested River Oaks students for next year. Transportation would be on their own and I will get the schedule once it's given to me.

The only pre-requisite is the completion of a sophomore level math class, with an A or B.

Please forward students who are interested in this exciting opportunity. Upon successful completion, students will also have the chance to earn industry related certification.

If you have additional questions, please don't hesitate to ask.

Interested in the field of Engineering? Cal Lutheran is hosting an introductory summer course for high school students. Each student earning a passing grade will receive John Hopkins University credit. This is an intensive, "hands-on" summer school course that offers an opportunity to think and problem-solve like an engineer. (Prerequisites: As and Bs in high school math and science courses; successful completion of Algebra II and knowledge of Trigonometry; successful completion of Biology, Chemistry or Physics and knowledge of spreadsheet application, such as Excel.)

Tuition: \$2300 (Need-based scholarships are available!)

Summer School Career Exploration Workshops - CEC

There are 31 career camps and courses for students to explore this summer. There will be speakers, field trips and other project-based work opportunities to experience incorporated into each workshop. Attached below is a link to these amazing options - space is limited, so reserve your spot soon. Make an appointment with Richard and he will assist you with the registration process. (5 credits available)
