Career Pathways Data Analysis and Reporting

This plan involves three phases: Data Analysis and Reporting

Data Analysis Phase:

This phase involves the combining of various data sheet and self-reports from the pathways. These data are cleaned and re-coded to provide several files that can produce the values needed for the Momentum Points report. The Key aspects of this phase are:

- Combining all individual data records and re-coding to standardize all values in SPSS
- Cleaning data where needed and identifying missing data

Reporting Phase

Aligning the data collected to the program goals and activities and generating narrative explanations of the data for the report. Key aspects of this phase:

- Creating narrative explanations of data needed in the general report
- Completing the Momentum Points Report
- Reviewing drafts of the report as needed

Cost:

Data Analysis Phase: \$1,000.00

Data Reporting Phase: \$900

Total Cost of Project: \$1,900.00

Payment Schedule:

Payment 1: Due at start of Project \$633.33

Payment 2: Due end of data analysis phase \$633.33

Payment 3: Due End of Project \$633.34
