

Student Health Decision Tree

Screen all students for potential COVID-19 symptoms or exposure

Symptoms commonly found with COVID-19 or other viral infections

- Sore throat
- Congestion/ runny nose
- Nausea/ vomiting/ diarrhea

- Headache
- Fatigue/ muscle or body aches

Symptoms frequently associated with COVID-19

- Fever ($\geq 99.5^{\circ}\text{F}$)
- Cough
- Difficulty breathing
- Loss of taste/ smell

Exposure to COVID-19 positive person

Close contact: less than 6 feet, 15 minutes or longer

NO

NEW symptom/s **commonly** or **frequently** found with COVID-19 that is a **change from the student's baseline**

STAY HOME

To return to school, student will need to meet **ONE** of the following:

1. Confirm alternate diagnosis, with a doctor note **AND** 24 hours have passed since symptom resolution (without fever-reducing medications)
2. A negative COVID-19 antigen or PCR test **AND** 24 hours have passed since symptom resolution (without fever-reducing medications)
3. A positive COVID-19 antigen or PCR test **AND** 10 days have passed since symptom onset **AND** 24 hours have passed since resolution of symptoms (without fever-reducing medications)

YES

FULLY VACCINATED *

HAS SYMPTOMS

NO

ATTEND SCHOOL

May remain in school and continue wearing a face mask. However, should get tested 3-5 days after their last exposure and monitor for symptoms for 14 days from last exposure. Staff must follow Cal/OSHA guidance.

YES

STAY HOME

To return to school, student will need to meet **ALL** the following:

1. No fever in the last 24 hours (without fever-reducing medications)
2. Improvement of symptoms
3. A negative COVID-19 PCR test **OR** note from doctor confirming another underlying medical condition **OR** note from doctor confirming another diagnosis **OR** at least 10 days have passed since symptom onset

UNVACCINATED

BOTH PERSONS HAD FACE MASKS ON

ATTEND SCHOOL

May continue attending in-person instruction if they meet **ALL** the following:

1. Are asymptomatic
2. Continue to wear face mask, as required
3. Test twice weekly during the 10-day quarantine (with an antigen or PCR test)
4. Cannot attend any extracurricular school activities, including sports, conditioning, band practice, etc.

Note: Modified quarantine applies **only** to exposures that occur on the school campus.

FACE MASKS NOT ON

STAY HOME

To return to school, student will need to meet **ALL** the following:

1. Quarantine can end after day 10 from the date of last exposure if asymptomatic, testing will not shorten the 10-day quarantine
2. Monitor for symptoms for 14 days from last exposure

* You are considered fully vaccinated against COVID-19 two (2) weeks after:

- You received a single-dose of the Johnson & Johnson/Janssen COVID-19 vaccine, **OR**
- You received a second dose of a Pfizer or Moderna COVID-19 vaccine

Rev. 08/25/2021

This care pathway was designed to assist school personnel and is not intended to replace the clinician's judgment or establish a protocol for all patients with a particular condition. Diagnosis and treatment should be under the close supervision of a qualified health care provider.

Diagrama de Salud del Estudiante

Examine a todos los estudiantes para detectar posibles síntomas de COVID-19 o exposición al virus

Síntomas comunes en COVID-19 o en otras infecciones virales

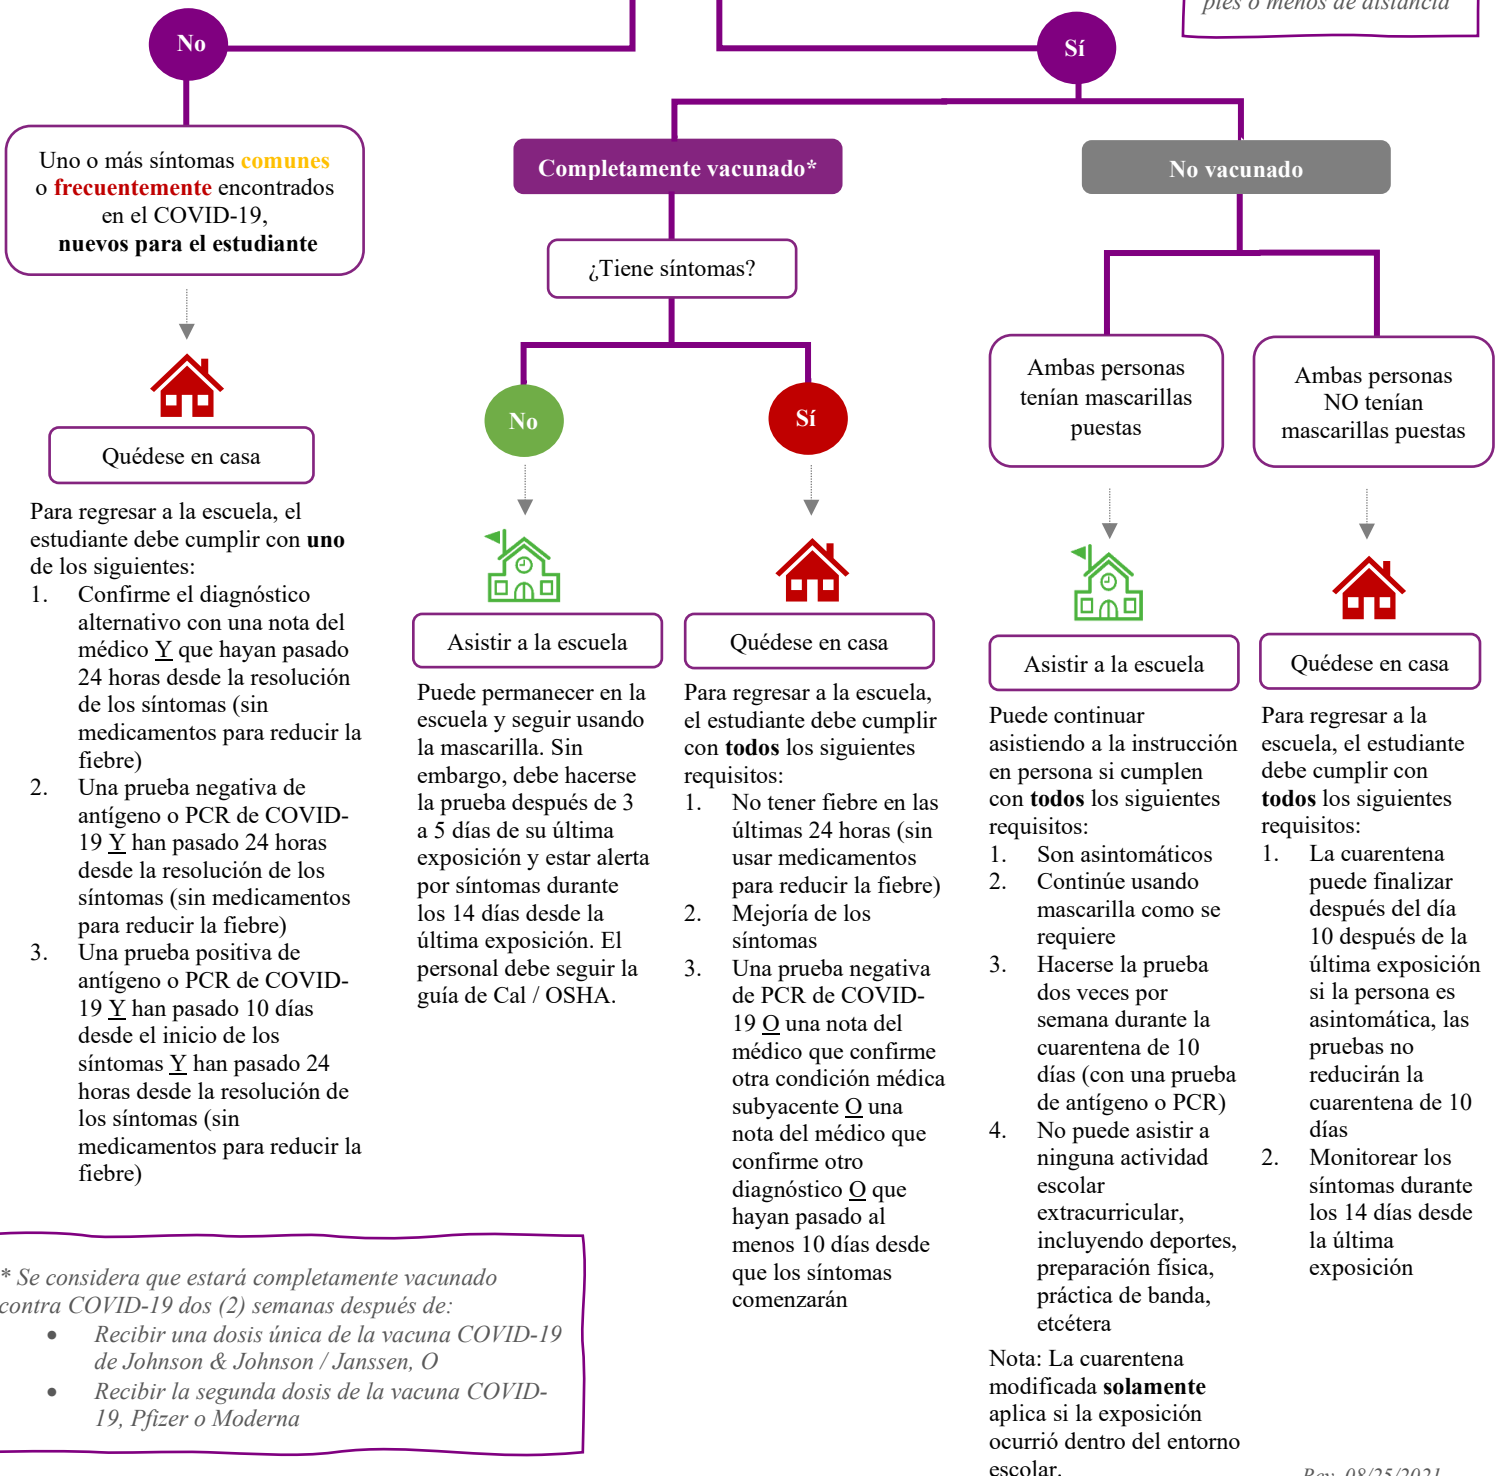

- 👤 Dolor de garganta
- 🤧 Dolor de cabeza
- 👃 Congestión nasal/ mucosidad
- 😴 Fatiga/ dolores musculares o corporales
- 🤢 Nauseas/ vómitos/ diarrea

Síntomas frecuentemente asociados con COVID-19

- 🤒 Fiebre ($\geq 99.5^{\circ}\text{F}$)
- 😷 Dificultad para respirar
- 👤 Tos
- 😷* Pérdida del gusto/ olfato

¿Tuvo contacto cercano con alguien que tiene COVID-19?

Contacto cercano: estar por 15 minutos o más a 6 pies o menos de distancia

Nota: La cuarentena modificada **solamente** aplica si la exposición ocurrió dentro del entorno escolar.

Rev. 08/25/2021

Este camino de cuidado de la salud fue diseñado para ayudar al personal de la escuela y no tiene como objetivo reemplazar la opinión de los médicos o establecer un protocolo para todos los pacientes con una condición de salud particular. El diagnóstico y el tratamiento deben realizarse bajo la supervisión directa de un proveedor calificado de atención médica.
